

# Damilare sanusi

## Product Designer

### Experience

#### Product Designer

Cyan Design Academy

January 2021, Contract, Remote

Created online presence for the firm by designing their official website in webflow, designed a clean, clear and appealing brochure to explain service delivery models and patterns used by the firm and designed digital flyers for online publicity. This resulted in over 100 conversions in the first 2 weeks of operations

#### Service Designer

The Girllead Project

Ongoing, Volunteer, Remote

Sustained company service delivery by designing a virtual mentorship/certification system UI and User Flow to tackle the issue of social distancing and improve company service accessibility

#### Product designer

Molite

August - December 2020, Contract, Remote

I halved the sprint time and increased team productivity by designing a user flow, information architecture and a prototyped application for the startup. Along with a brand identity designed by me increased their chances of exiting a seed funding round and releasing an MVP(web and mobile)

#### Design Engineer

Kyiakyia Digital Software Consultancy

June 2019 - June 2020, Contract, Remote

Increased agency valuation and profit by designing brands/brand guides as well as user interfaces and experiences for various products under fields like Education, Commerce and Human resource management.

#### Brand Designer

Runtime Solutions Agency

August 2020, Contract, Remote

I created a brand and visual identity for an international digital solutions firm as well as developed publicity content around their services.

### Education

#### Bachelors degree in Computer Science

University of Benin

2015 - 2020

#### Design

Interaction Design Foundation

2020

#### Product Design Internship

Venture Garden Group

2019
